# The Project

## OVERVIEW

World Recovery Café honors the role of food in identity, recovery, and belonging. This project explores the barriers and joys of different recovery experiences, connecting groups through shared meals and creative discussion.

## WORLD CAFÉS

Each month starts with a **focus group** of up to 30 people who self-identify with that month's theme. Trained facilitators guide open-ended, creative discussion designed to generate new ideas. **RSVP Required.**

## RECOVERY CAFÉS

Featured speakers share their recovery story, connecting themes that emerged in the World Café in an all-recovery meeting format. **NO RSVP Required.** Open to all in the recovery community.
